

The Scissoroo is a uniquely Australian pair of scissors designed by Trevor Robertson, featuring the iconic Australia Kangaroo. Having recognised that there were not any distinctly Australian scissors, Trevor set about designing a pair himself. He was inspired by the strength, movement and grace of the kangaroo, and began applying this form to a pair of scissors so it could represent this uniquely Australian animal. Thus the Scissoroo was born.

It has taken Trevor two years from original concept drawings to bring this iconic pair of scissors to market. The elegant shape of the kangaroo fits perfectly into the shape of the scissors and is a design triumph. In the Scissoroo, form follows function.

The unique design of the Scissoroo has allowed it to be registered as a three dimensional trade mark in Australia and other countries around the world. It is certainly the first pair of scissors to be trade marked in this way in Australia and possibly the world.

Attention to detail and quality has resulted in a pair of fine 3.5 inch scissors second to none in performance and design. Most small scissors have symmetrical finger holes that do not fit both fingers and thumbs precisely enough to give total control. The Scissoroo has finger holes that are each uniquely shaped to fit both the finger and thumb of the user perfectly. This creates total control over the scissors for the user. This means the Scissoroo is not just about aesthetics but also functional and ergonomic design. The Scissoroo blade is designed to cut threads as well as light fabric, making them the ideal small sewing and appliqué scissors. As well as traditional embroidery, the Scissoroo is also great for ribbon embroidery.

The Scissoroo is available in two hand gilded options, the 'Gold Roo' with silver background and the 'Silver Roo' with gold background. The two tone hand gilding is remarkable when you consider the intricate shape of the kangaroo! Scissoroo's are hand crafted and finished in a small family run workshop in Italy, exclusively for Scissorman. Trevor visits the workshop in Italy personally to oversee production of these bespoke scissors.

Scissoroo's are stylishly packaged in a collectable matt black tin with the attractive Scissoroo Crest in gold on the front. The Scissoroo Story is featured on the back of the tin.

In addition to being a must-have for any true-blue Australian, the Scissoroo makes the perfect high quality souvenir or gift from Australia for friends and family overseas.

For more information on the Scissoroo or how to become a stockist please phone Trevor on 0412 727 665.
